

CONSENT FOR SURGERY

I, myPatientName, desire myProvider and such assistants as may be assigned by myProviderPronoun to perform the elective procedure(s):

myProcedureTitle myProcedureSubtitle

The nature and purpose of the operation(s), possible alternative methods of treatment, including no treatment or surgery, risks and possible complications have been fully explained to me by myProvider during my preoperative consultation.

I have been advised that all surgery involves general risks, including but not limited to bleeding, infection, nerve or tissue damage and, rarely, cardiac arrest, death, or other serious bodily injury. I acknowledge that no guarantees or assurances have been made as to the results that may be obtained.

I understand that anesthesia will be given and that it, too, carries risks. I consent to the administration of anesthesia by either myProvider or a qualified anesthesiologist and to the use of such anesthetics as he may deem advisable.

It has been explained to me that during the course of the operation unforeseen conditions may be revealed that necessitate an extension of the original procedure. I hereby authorize my doctor and/or such assistants as may be selected by myProviderPronoun to perform such procedures as are necessary and desirable, including but not limited to the services of pathologists, radiologists, or a laboratory. This authority extends to remedying conditions that are not known to my doctor at the time the operation commences.

I understand that if computer-generated documents were used in my planning, they were used merely for purposes of illustration and discussion. I understand there is no warranty, expressed or implied, as to my final appearance by use of such electronically altered images.

I understand that photography is important in planning and evaluating surgery, and I give permission for photographs to be taken before, during, and after my surgery for documentation purposes only.

I agree to keep my doctor informed of any change in my permanent address so that he can inform me of any important new findings relating to my surgery. I further agree to cooperate with myProviderPronoun in my aftercare until I am discharged from his care.

In signing this consent, I certify that I understand the risks, benefits, and alternatives to my procedure(s) and that I have discussed them with myProvider

Please do not give your permission or sign this consent form if you have any questions regarding your procedure(s). Please advise a staff member of these questions or concerns so that arrangements can be made for myProvider to discuss them with you.
